## PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student at P A College of Engineering (VTU) with strong foundations in Java, Spring Boot, Python, SQL, and Data Structures & Algorithms. Experienced in building backend applications and AI-powered systems using OpenAI API, Pinecone, and Streamlit. Active IEEE member with leadership experience, hackathon participation, and a strong interest in software engineering and backend development roles.

## EDUCATION

**B.E. in Computer Science and Engineering** 2023 – 2027

*P A College of Engineering, Mangalore (VTU) | CGPA: 7.91 / 10*

**PUC – Science (PCMS)** 2021 – 2023

*SECAB Pre-University College, Vijayapura | Percentage: 89.84%*

## PROJECTS

**[AI-Powered B2B Smart Marketing Assistant](#)** | Python, OpenAI API, SMTP [Web App Link](#)

- Built an AI-driven system that researches companies and generates personalized B2B outreach emails using the OpenAI API.
- Integrated SMTP-based email automation to streamline outbound marketing workflows.
- Automated lead research and outreach, reducing manual effort in B2B lead generation workflows.

**[Resume QA System using RAG](#)** | Python, OpenAI API, Pinecone, Streamlit

- Built a retrieval-augmented generation (RAG) system that answers questions over resume datasets using embeddings.
- Implemented metadata filtering to improve retrieval accuracy from the Pinecone vector database.
- Developed an interactive Streamlit interface for AI-powered resume question answering.
